

## The Ashok Leyland School

### Sustainability Policy

World Population is growing and resources are limited and polluted; therefore we at The Ashok Leyland school, Hosur are embarking on a formal mission to practice sustainability in everything we do so that, we can do more with less and cleanse our world ; thus improving the quality of life for the present and future.

The vision and objectives of our school sustainability program are as follows:

**Vision:**

To be a premier educational institution in practising sustainability & influencing populace within the school, as well as influencing and serving society outside.

**Goals/ Objectives:**

1. To make Children / Stakeholders aware about conservation and sustainability
2. Reduce facility carbon footprint, reduce, reuse, recycle resources and minimize life cycle cost
3. To Promote Organic Practices.
4. To Improve indoor environmental in school.
5. To motivate Students / Stakeholders to adopt and influence the sustainable practices in home and communities.
6. To Facilitate Children's Participation in decision making in areas related to environment and development.
7. To bring children into direct contact with the environmental problems facing society they live in and make them think of solutions.
8. To promote innovation in students for/through sustainability.
9. To promote entrepreneurship in students for/ through sustainability.
10. To serve the underprivileged in the society in the area of sustainability.
11. To become benchmark for other institutions and organization to learn sustainable practices.

We are already following actions that meet the above to some extent but from TODAY/ NOW onwards we are formally committed to enhance and monitor our adherence to the above vision/objectives comprehensively.
